

Benjamin Unrau Dyck

Student at Universidad Nacional de Asuncion - Facultad Politecnica

- Asuncion, Paraguay
- +595986361808
- benjaminunrau07@gmail.com
- https://benjaminunraudyck.github.io/
- LinkedIn: Benjamin Unrau Dyck

Languages

- German
Mother tongue
- English
Writing, Reading and Speaking
- Spanish
Writing, Reading and Speaking

Hard skills

- Python
- Java
- C
- C++
- PostgreSQL

Soft Skills

- Problem solving
- Communication
- Adaptability
- Teamwork
- Attention to detail
- Curiosity

Summary

I am a 23-year-old Computer Science student with a strong foundation in software development, specializing in backend technologies. I am particularly interested in Quality Assurance (QA), with a growing passion for automation and AI. My multilingual skills in German, English, and Spanish, combined with my growing technical expertise, make me a valuable asset in diverse, collaborative environments.

Experience

- WPG S.R.L** May 2024 - Present
Internship San Lorenzo, Central, Paraguay
<http://www.wpg.com.py/>
 - Worked on a project utilizing OpenAI-Azure integration to develop a personalized AI coding assistant based on company guidelines and code.
 - Conducted research on fine-tuning AI models and optimizing performance.
 - Learned about prompt engineering and instruction set development for enhanced AI functionalities, and maximising precision.
- Cooperativa Chortitzer LTDA** December 2021 - February 2023
Merchandise Repository San Lorenzo, Central, Paraguay
<https://www.chortitzer.com.py/en/cooperativa-chortitzer/>
 - Merchandise repository, customer support, and inventory management through the company's ERP

Education

- Universidad Nacional de Asuncion - Facultad Politecnica** 2021 - Present
Bachelor in Computer Science
Programming
<https://www.pol.una.py/>
 - Currently pursuing a diverse curriculum covering essential computer science fields, including database management, object-oriented programming, and software development methodologies.
 - Led and participated in various academic projects, demonstrating strong leadership and problem-solving skills in real-world scenarios, and fostering team collaboration.
 - Participated and volunteered at university events, contributing as a helper and organizer, gaining hands-on experience in event management and technical support, enhancing teamwork and communication skills in fast-paced, dynamic environments.
 - Gained practical experience with multiple programming languages and technologies through coursework and self-directed learning, including SQL, Python, Java.
- Colegio Secundario Loma Plata** 2017 - 2019
Basic Sciences
<https://www.cslp.edu.py/es>

Extracurricular Experience

IEEEExtreme 17.0

29th October 2023

Programming Competition

 <https://ieeextreme.org/>

Latinoware

18 - 20 of October 2023

Free software and open Technologies

Foz do Iguaçu

 <https://latinoware.org/>

Kavacon

08 - 18 of November 2022

Cybersecurity Seminar

 <https://kavacon.org/>

CS50's New Year's Seminars

16th of January 2021

A Taste of Python

Learning about basic syntax, control structures, functions, libraries and problem solving skills

CS50's New Year's Seminars

06th of February 2021

A Taste of Linux

Basic comands, file permissions, package management and shell scripting basics

Particular Tutoring

2017 - 2019

Particular Tutoring in Spanish, English, German and Math

Translation and Transcription

2018 - 2020

Transcription and translation in German, Spanish and English
