

Benjamin Unrau Dyck Student Asuncion, Paraguay +595986361808 benjaminunrau07@gmail.com		
Summary	I am a 23-year-old Computer Science student with a strong foundation in software development, specializing in backend technologies. I am particularly interested in Quality Assurance (QA), with a growing passion for automation and AI. My multilingual skills in German, English, and Spanish, combined with my growing technical expertise, make me a valuable asset in diverse, collaborative environments.
